

## How to Register and Add Money to your Dirigo TouchPass Card

There are two easy ways to add money to your TouchPass Card

### 1. Add Money at Participating Sales Locations:

You can stop by one of our many reload locations and use cash or a credit/debit card to add money to your TouchPass account. See list of participating locations on back (page 2).

### 2. Add Money Online:

You can register your card and login to your TouchPass account to load money online at **Touchpass.com**.

#### How to Register your Card:

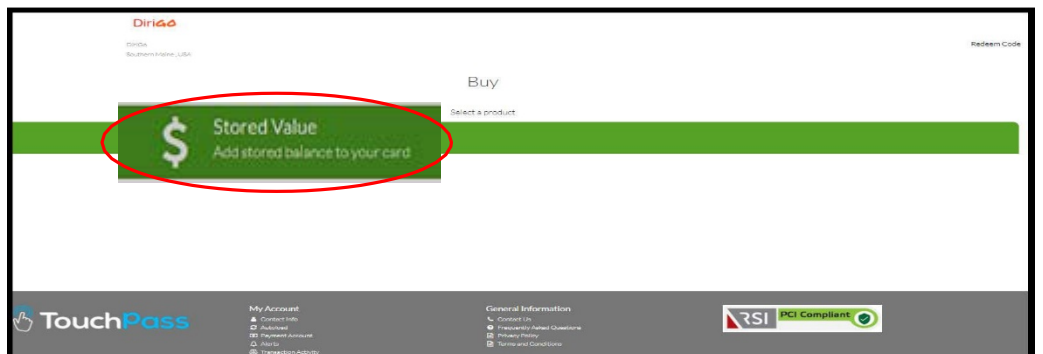

Visit Touchpass.com, click "**Register**" on the home screen, next click "**I Want to use a Card.**" On the registration screen, enter a username and password (minimum 8 characters must contain: uppercase letter, lowercase letter, and number), enter the card number on the back of your TouchPass Card, read and agree to the terms and conditions, then click "**Register.**"

#### Add Money to your Account:

Once you're registered and logged into your account, click "**Buy**" in the upper right-hand corner of the home screen.

Next click the **green "Stored Value"** bar to bring up the Purchase screen.

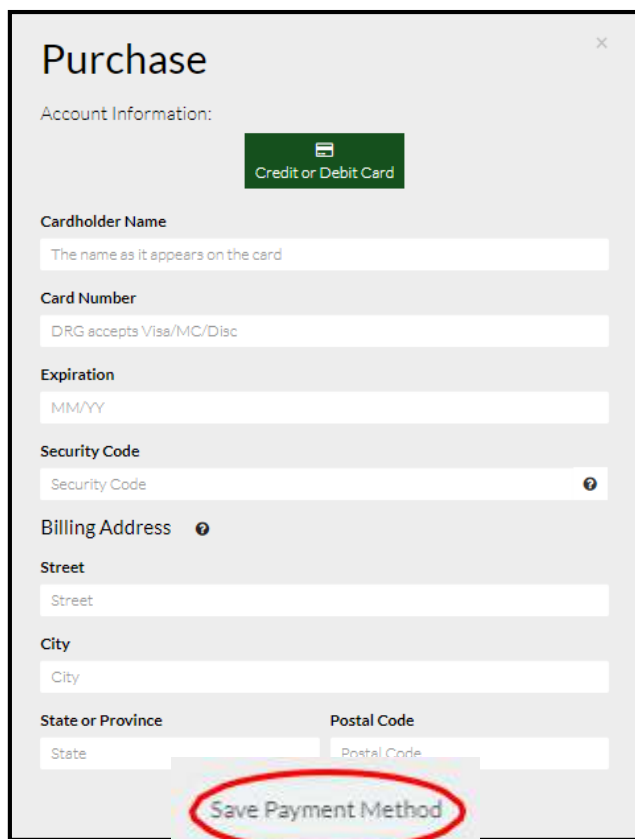

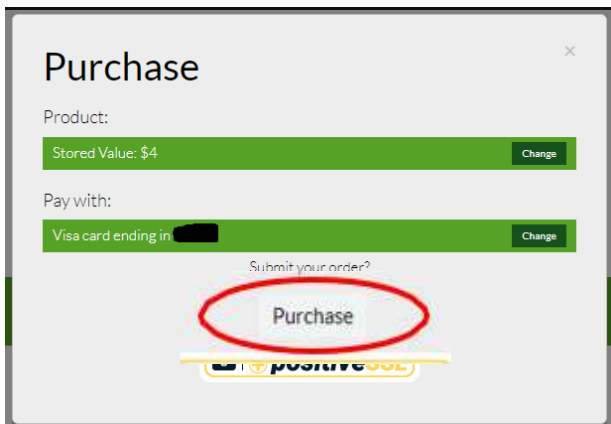

Enter the amount of money you would like to add to your card (you can add any amount from \$4 to \$200) then click "**Next.**"

Enter your credit or debit card information and click **"Save Payment Method."**

**Take a second look to make sure you're loading the correct amount of money** (no refunds will be given), then click **"Purchase"** to complete the transaction. When you return to the home screen you will see your stored value balance.

**IMPORTANT REMINDER: A customer may not have an active Dirigo TouchPass card and a mobile app account at the same time. If you enter your card number into the mobile app, the card will become deactivated. Replacement cards cost \$5.00. If you use your smartphone to load value onto your card, be sure you are logging in at Touchpass.com and not through the mobile app.**
